

# Biometrics Conference

February 2002

## Objectives

- Think Strategically
- Technology Change (How it's done)
- Holistic Approach (Possible biometric solution)

## Our Approach

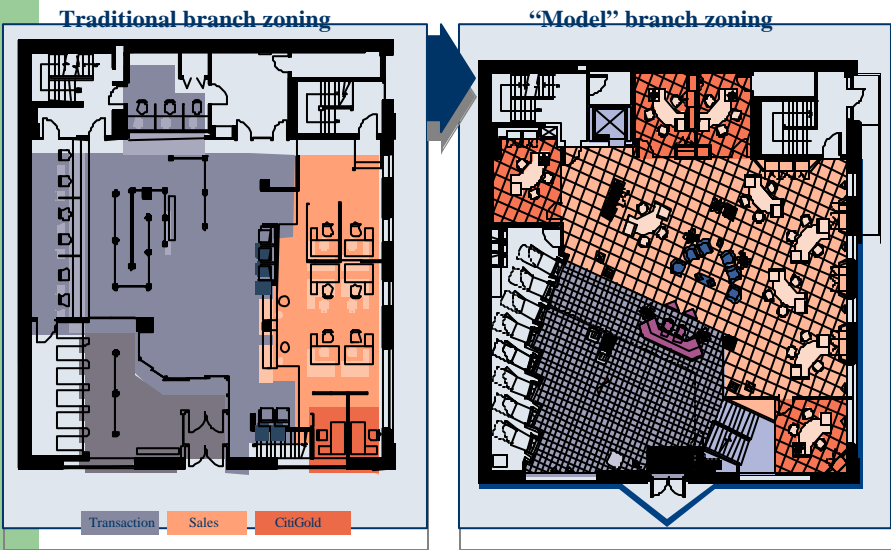

## Overall Framework

Technology + Process = Facilities  
Developments + Reengineering = Redesign

# Transformation Case Study : Banking

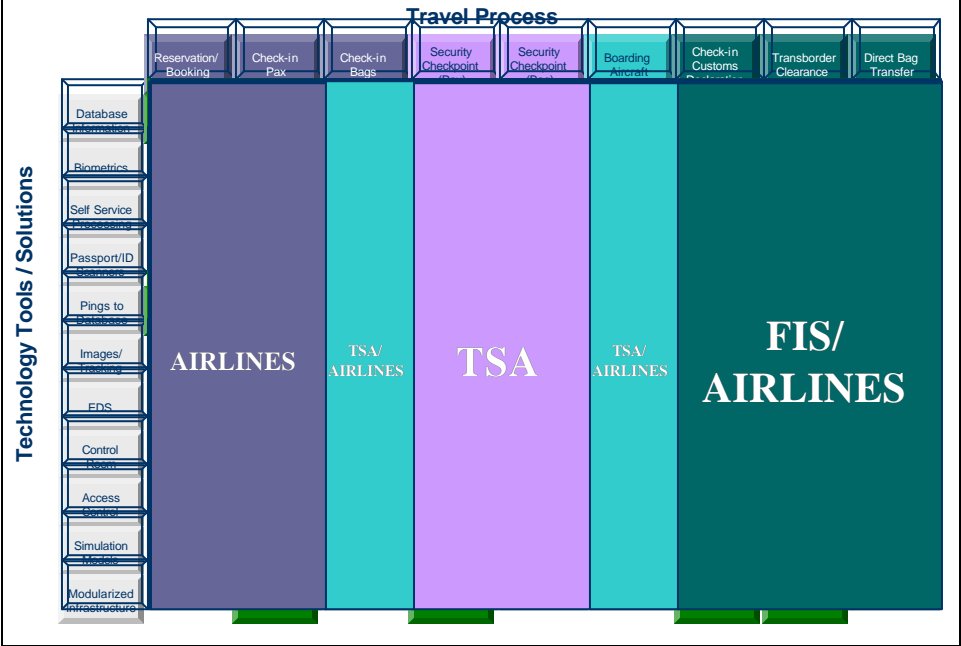

## Technology Will Change the Footprint Banking Industry

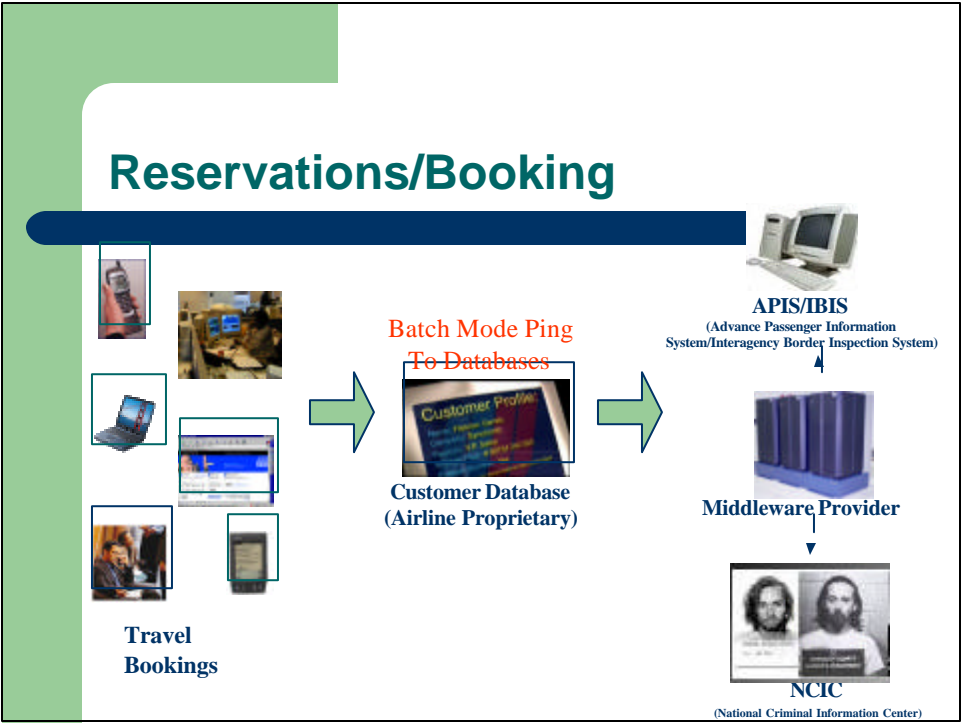

## Transformation Case Study : Gas Stations

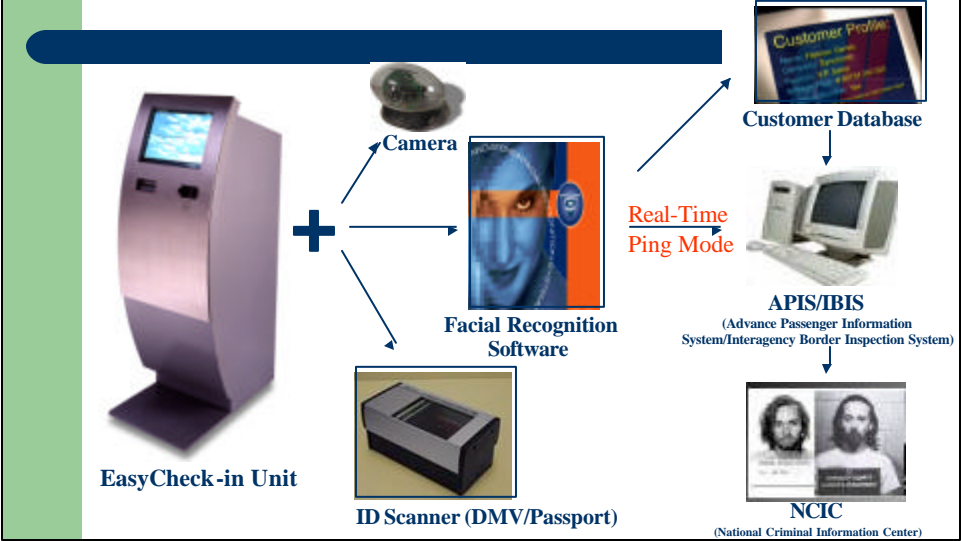

### Prototype: Integrating New Technologies for Customers' Travel Process

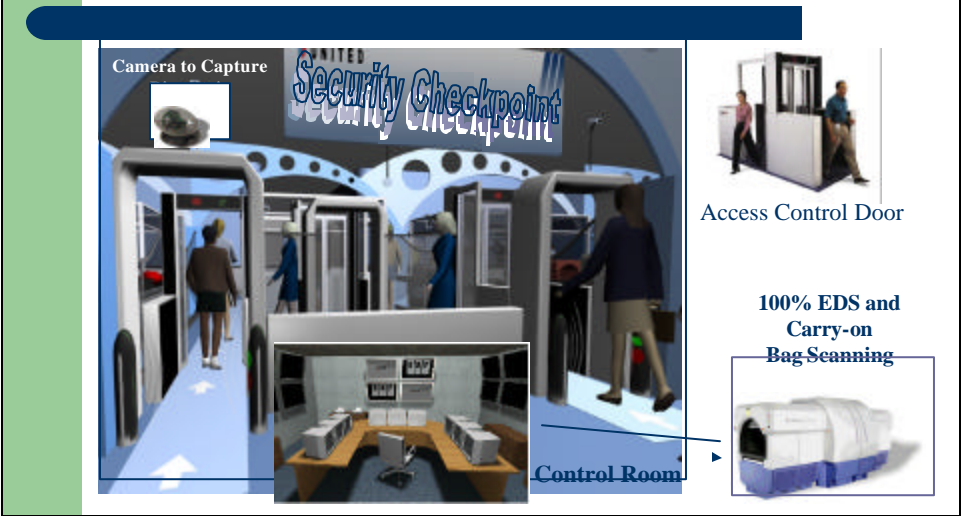

Prototype: Integrating New Technologies for Customers' Travel Process									
Technology Tools / Solutions	Travel Process								
	Reservation/Booking	Check-in Pax	Check-in Bags	Security Checkpoint (Pax)	Security Checkpoint (Bag)	Boarding Aircraft	Check-in Customs Declaration	Transborder Clearance	Direct Bag Transfer
	Database Information								
	Biometrics								
	Self Service Processing								
	Passport/ID Scanners								
	Pings to Database								
	Images/Tracking								
	EDS								
	Control Room								
	Access Control								
	Simulation Models								
	Modularized Infrastructure								

## Check-in Process

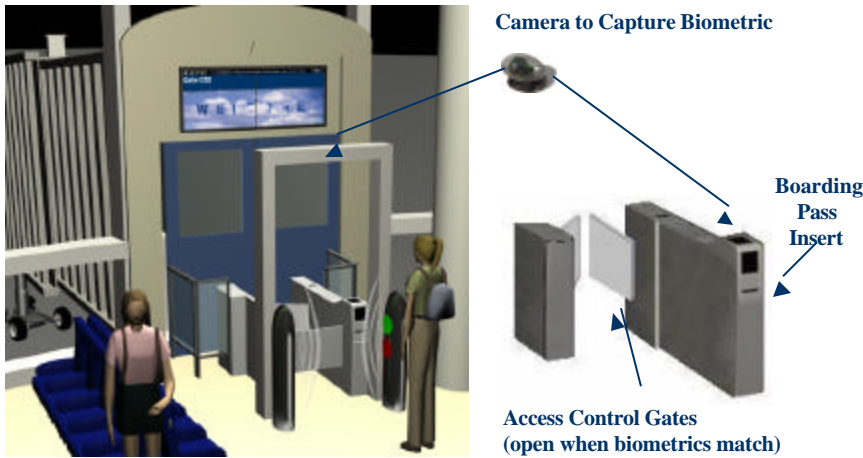

## Security Checkpoint

# Security Breach

# Aircraft Boarding Process

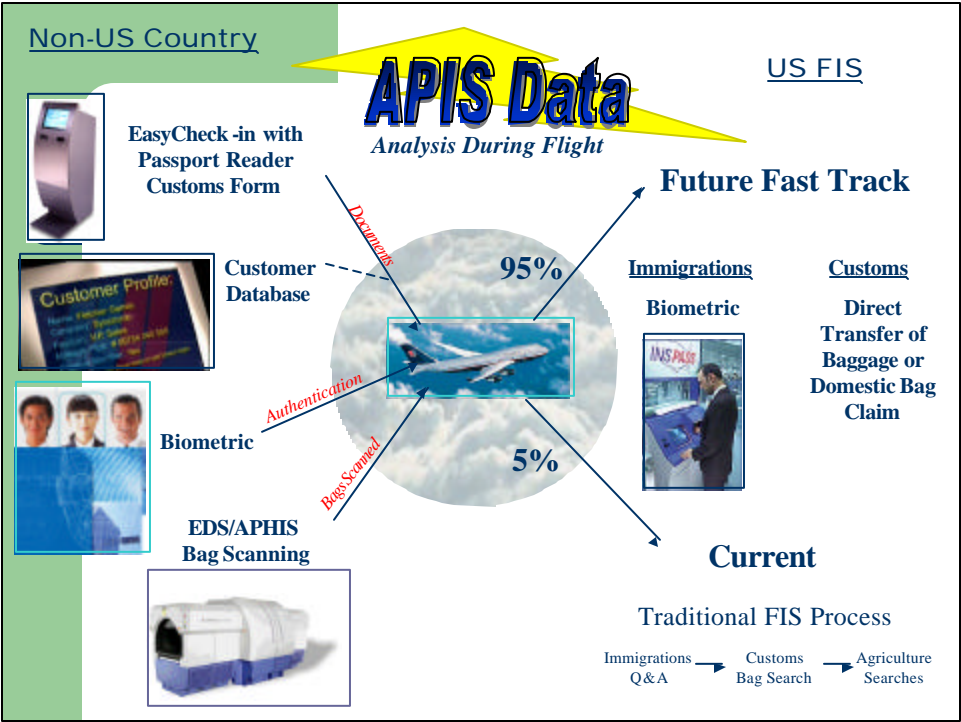

## Transborder Clearance

**The Federal Inspection Services  
will use the same security  
technology:**

## Sample Passenger E-File

- Passport Information
- Travel Documents
- Biometric Data
- Customs Form Completed
- Bag Images
- PNR/Database Information

# Summary

Technology + Process = Facilities  
Developments + Reengineering = Redesign  
  
= Satisfied Customers
